

OLD MUTUAL INTEREST PLUS FUND

GENERAL INVESTOR REPORT

MARCH 2021

RISK PROFILE

Low	Low to Moderate	Moderate	Moderate to High	High
-----	-----------------	----------	------------------	------

Fund Objective	The fund aims to deliver returns in excess of those offered by money market funds and similar levels of liquidity, without significantly increasing risk.
Investor Profile	This fund suits risk-averse investors with a short-term investment horizon and who want yields in excess of those on money market investments, but also require high liquidity from their investment and cannot tolerate the higher risk associated with income funds.
Investment Mandate	The fund is a specialist yield-enhanced money market portfolio that offers diversification, high liquidity and very low volatility by investing in money market and short-term debt instruments. Compared to money market unit trusts, it will have a marginally higher risk exposure in order to provide yield enhancement. However, low volatility is a key criterion for this product. The weighted average modified duration of this fund is 1.2 years. Derivatives may be used for efficient portfolio management purposes.
Fund Managers	Michael Van Rensburg (Futuregrowth Asset Management) FSP No: 604
Regulation 28 Compliance	This fund is not Regulation 28 compliant.
ASISA Category	South African - Interest Bearing - Short Term
Benchmark	STeFI Composite Index
Performance Target	STeFI Composite Index + 0.75% p.a. over rolling 1-year periods
Risk Objective	No capital loss over any monthly period.
Launch date	3 October 2011
Size of Fund	R2.1bn
Minimum Investments	Monthly: R500 Lump sum: R10 000 Ad hoc: R500

The following graph shows the risk/return analysis of the fund within the range of low risk category funds to high risk category funds.

Risk/Return Analysis: 5 Years to 31 March 2021

We aim to treat our clients fairly by giving you the information you need in as simple a way as possible, to enable you to make informed decisions about your investments.

- We believe in the value of sound advice and so recommend that you consult a financial planner before buying or selling unit trusts. You may, however, buy and sell without the help of a financial planner. If you do use a planner, we remind you that they are entitled to certain negotiable planner fees or commissions.
- You should ideally see unit trusts as a medium- to long-term investment. The fluctuations of particular investment strategies affect how a fund performs. Your fund value may go up or down. Therefore, we cannot guarantee the investment capital or return of your investment. How a fund has performed in the past does not necessarily indicate how it will perform in the future.
- The fund fees and costs that we charge for managing your investment are disclosed in the relevant fund's Minimum Disclosure Document (MDD) or table of fees and charges, both available on our public website or from our contact centre.
- Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained, free of charge, from Old Mutual Unit Trust Managers (RF) (Pty) Ltd, from our public website at www.oldmutualinvest.com or our contact centre on 0860 234 234.
- Our cut-off time for client instructions (e.g. buying and selling) is at 15:00 each working day for all our funds, except the Money Market Funds, the price of which is set at 13:00. These are also the times we value our funds to determine the daily ruling price (other than at month-end when we value the Old Mutual Index Funds and Old Mutual Multi-Managers Funds of Funds range at 17:00 close). Daily prices are available on the public website and in the media.
- Unit trusts are traded at ruling prices, may borrow to fund client disinvestments and may engage in script lending. The daily price is based on the current market value of the fund's assets plus income minus expenses (NAV of the portfolio) divided by the number of units on issue.
- Income funds derive their income primarily from interest-bearing instruments as defined. The yield is a current yield and is calculated daily.
- The Net Asset Value to Net Asset Value figures are used for the performance calculations. The performance quoted is for a lump sum investment. The performance calculation includes income distributions prior to the deduction of taxes and distributions are reinvested on the ex-dividend date. Performances may differ as a result of actual initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Annualised returns are the weighted average compound growth rates over the performance period measured. Performances are in ZAR and as at 31 March 2021. Sources: Morningstar and Old Mutual Investment Group (FSP no. 604).

Old Mutual Unit Trust Managers (RF) (Pty) Ltd is a registered manager in terms of the Collective Investment Schemes Control Act 45 of 2002. Old Mutual is a member of the Association for Savings and Investment South Africa (ASISA). Old Mutual Unit Trust Managers has the right to close the portfolio to new investors in order to manage it more efficiently in accordance with its mandate.
