

OLD MUTUAL MSCI WORLD ESG INDEX FEEDER FUND

GENERAL INVESTOR REPORT

JUNE 2021

RISK PROFILE

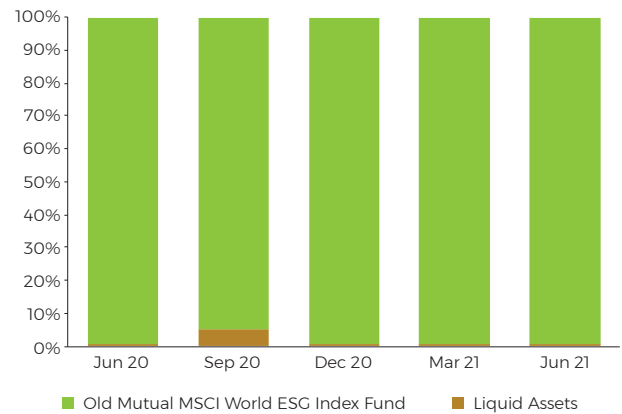

The risk profile does not take the impact of exchange rate fluctuations into account.

Fund Objective	The fund aims to achieve long-term capital growth by primarily gaining exposure to the MSCI World ESG Leaders Index, a free float-adjusted market capitalisation weighted index designed to measure the equity market performance of companies with high Environmental, Social and Governance (ESG) performance relative to their sector peers across developed markets worldwide.
Investor Profile	This fund suits investors with a longer-term investment horizon who primarily seek capital growth through exposure to the developed market equities that make up the MSCI World ESG Leaders Index. These investors can tolerate stock market and currency volatility.
Investment Mandate	Apart from assets in liquid form and exchange rate swaps, the fund only holds participatory interests in the Old Mutual MSCI World ESG Index Fund, a sub-fund of the Russell Investment Company Plc, which aims to replicate the performance of the MSCI World ESG Leaders Index. Derivatives can be used for efficient portfolio management purposes.

We aim to treat our clients fairly by giving you the information you need in as simple a way as possible, to enable you to make informed decisions about your investments.

- We believe in the value of sound advice and so recommend that you consult a financial planner before buying or selling unit trusts. You may, however, buy and sell without the help of a financial planner. If you do use a planner, we remind you that they are entitled to certain negotiable planner fees or commissions.
- You should ideally see unit trusts as a medium- to long-term investment. The fluctuations of particular investment strategies affect how a fund performs. Your fund value may go up or down. Therefore, we cannot guarantee the investment capital or return of your investment. How a fund has performed in the past does not necessarily indicate how it will perform in the future.
- The fund fees and costs that we charge for managing your investment are disclosed in the relevant fund's Minimum Disclosure Document (MDD) or table of fees and charges, both available on our public website or from our contact centre.
- Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained, free of charge, from Old Mutual Unit Trust Managers (RF) (Pty) Ltd, from our public website at www.oldmutualinvest.com or our contact centre on 0860 234 234.
- Our cut-off time for client instructions (e.g. buying and selling) is at 15:00 each working day for all our funds, except for our money market funds, where the cut-off is at 12:30.
- The valuation time is set at 15:00 each working day for all our funds, excluding our money market funds which is at 13:00, to determine the daily ruling price (other than at month-end when we value the Old Mutual Index Funds and Old Mutual Multi-Managers Fund of Funds range at 17:00 close). Daily prices are available on the public website and in the media.
- Unit trusts are traded at ruling prices, may borrow to fund client disinvestments and may engage in script lending. The daily price is based on the current market value of the fund's assets plus income minus expenses (NAV of the portfolio) divided by the number of units on issue.
- This fund holds assets in foreign countries and therefore it may have risks regarding liquidity, the repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement, and the availability of information.
- The Net Asset Value to Net Asset Value figures are used for the performance calculations. The performance quoted is for a lump sum investment. The performance calculation includes income distributions prior to the deduction of taxes and distributions are reinvested on the ex-dividend date. Performances may differ as a result of actual initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Annualised returns are the weighted average compound growth rates over the performance period measured. Performances are in ZAR and as at 30 June 2021.
