

OLD MUTUAL CAPITAL BUILDER FUND

GENERAL INVESTOR REPORT

MARCH 2021

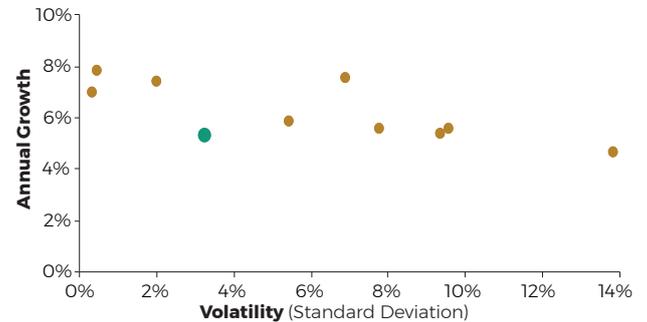

RISK PROFILE

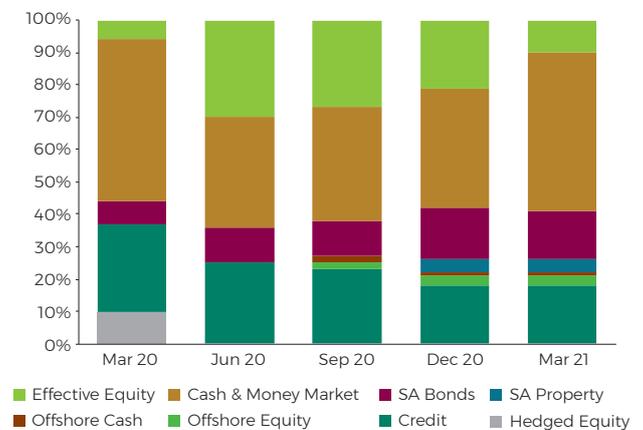

The following graph shows the risk/return analysis of the fund within the range of low risk category funds to high risk category funds.

Fund Objective	The fund aims to achieve capital protection and stable, tax-efficient growth in excess of cash returns. The fund targets a net annual return of 2% to 3% p.a. above cash over rolling three-year periods, and aims to deliver positive returns every quarter. Where negative quarters are experienced, the drawdowns are likely to be relatively small.
Investor Profile	The fund is suited to astute investors who want capital protection and stable, tax-efficient growth in excess of cash returns.
Investment Mandate	The fund invests in a broad spectrum of asset classes, including cash, fixed income, listed property and equities. Although equities generally account for between 65% and 75% of the portfolio, derivatives are used to reduce this to an effective equity exposure of 0% to 40%. The fund invests primarily in 20 to 25 large capitalisation shares. The balance of the portfolio is held in cash and money market instruments.
Fund Managers	Hanno Niehaus & Ziyaad Parker (Old Mutual Customised Solutions (Pty) Ltd) FSP No: 721

We aim to treat our clients fairly by giving you the information you need in as simple a way as possible, to enable you to make informed decisions about your investments.

- We believe in the value of sound advice and so recommend that you consult a financial planner before buying or selling unit trusts. You may, however, buy and sell without the help of a financial planner. If you do use a planner, we remind you that they are entitled to certain negotiable planner fees or commissions.
- You should ideally see unit trusts as a medium- to long-term investment. The fluctuations of particular investment strategies affect how a fund performs. Your fund value may go up or down. Therefore, we cannot guarantee the investment capital or return of your investment. How a fund has performed in the past does not necessarily indicate how it will perform in the future.
- The fund fees and costs that we charge for managing your investment are disclosed in the relevant fund's Minimum Disclosure Document (MDD) or table of fees and charges, both available on our public website or from our contact centre.
- Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained, free of charge, from Old Mutual Unit Trust Managers (RF) (Pty) Ltd, from our public website at www.oldmutualinvest.com or our contact centre on 0860 234 234.
- Our cut-off time for client instructions (e.g. buying and selling) is at 15:00 each working day for all our funds, except the Money Market Funds, the price of which is set at 13:00. These are also the times we value our funds to determine the daily ruling price (other than at month-end when we value the Old Mutual Index Funds and Old Mutual Multi-Managers Funds of Funds range at 17:00 close). Daily prices are available on the public website and in the media.
- Unit trusts are traded at ruling prices, may borrow to fund client disinvestments and may engage in script lending. The daily price is based on the current market value of the fund's assets plus income minus expenses (NAV of the portfolio) divided by the number of units on issue.
- The Net Asset Value to Net Asset Value figures are used for the performance calculations. The performance quoted is for a lump sum investment. The performance calculation includes income distributions prior to the deduction of taxes and distributions are reinvested on the ex-dividend date. Performances may differ as a result of actual initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Annualised returns are the weighted average compound growth rates over the performance period measured. Performances are in ZAR and as at 31 March 2021.
